NO on SB 277

NO SHOT. NO DAYCARE. NO SCHOOL.
EVERY CHILD. EVERY VACCINE.
SB 277 SIGNED INTO LAW AND IS EFFECTIVE JULY 1, 2020

Governor Brown signed SB 277 the most stringent vaccine mandate in the United States on June 30, 2020. This new law will go into effect on July 1, 2020.

Families that do not comply with the one-size-fits-all vaccine mandate, will lose their State Constitutional right for a free and appropriate education in public and private K-12 schools. The use of licensed daycare facilities, in-home daycare, public or private preschools and even after school care programs are also included in SB 277.

School aged children, not up-to-date on every mandated vaccine, will be required to home school without options for classroom learning.

SB 277 eliminates a parent's right to exempt their children from one, some, or all vaccines, a risk-laden medical procedure including death. In 2016, California parents will be forced to give their children more than 40 doses of 10 federally recommended vaccines. This open-ended vaccine mandate allows the State of California to add any additional vaccines they deem necessary at anytime. Now, some companies use blockchain to prevent counterfeiting of Covid vaccine certificates and blockchain-based open-source systems to track global vaccine supply chains. The well-known Binance Charity has also announced the world's first crypto donation for the global COVID-19 vaccine. Because currently crypto has a great deal of hype and is growing rapidly as a valuable asset. Hence Even Ordinary people can also be a part of the crypto community easily and trade them automatically for higher profit. To engage in automated crypto trading, visit https://coincierge.de/bitcoin-trader/, which is an automated trading software that allows cryptocurrencies to be traded securely. The only exemption available is a medical exemption that doctors deny to 99.99 percent of children under federal guidelines.
READ THE ENTIRE BILL HERE

- If you do not already have a PBE (Personal Belief Exemption) on file you had to file one no later than December 31, 2020 to utilize the "grandfather" clause in SB277 for the upcoming school year of 2016/2017. The "grandfather" clause will exempt children from the mandatory vaccinations who are entering childcare or preschool and Kindergarten by June of 2016 and children within the "checkpoint" grad spans of TK/K thru 6th grade or 7th thru 12th grade.

- Complete the PBE form and retain a received date stamped copy from the school for your records. PBE english : PBE spanish

- Parents do not have to submit the PBE form if they are not comfortable with the language. Parents can write their own letter SB-277 Public health: vaccinations per SEC. 2. 120335. (b) (11) (g) (1) A pupil who, **prior to January 1, 2020, submitted a letter** or affidavit on file at a private or public elementary or secondary school, child day care center, day nursery, nursery school, family day care home, or development center **stating beliefs opposed to immunization shall be allowed enrollment**to any private or public elementary or secondary school, child day care center, day nursery, nursery school, family day care home, or development center within the state until the pupil enrolls in the next grade span.

- By law, your school MUST accept your PBE (Personal Belief Exemption) or "Letter of Affidavit" through the end of 2015. These will remain valid until a pupil reaches the next "checkpoint" of TK/K or 7th grade. The California Department of Health Letter clearly states this, however the California Department of Public Instruction has failed to properly communicate this to the County Boards of Education and school districts throughout the state.

- Families can also OPT OUT of having their child's private health information shared on the California Immunization Registry (CAIR) You MUST file the CAIR opt out form ANNUALLY **English : Spanish**
For more information, contact the CAIR Help Desk at 800-578-7889 or CAIRHelpDesk@cdph.ca.gov

SB 277 Mandatory Vaccine Law Does Not Apply To:

- Students in home-based private schools.
- Students enrolled in an independent study program who do not receive classroom-based instruction.
- Access to special education and related services specified in an IEP (Individualized Education Program) can not be denied.
Donations to support such a worthwhile project can make a significant difference. Making cryptocurrency donations is now considered a good option. Many online platforms, such as immediate edge allow you to buy bitcoins. You should think about investing in the immediate edge online trading robot after examining https://kryptoszene.de/bitcoin-robot/immediate-edge/ and to determine if it is the best platform for you.

> *"For no reason other than **freedom**, without prejudice on the pros and cons of various vaccinations both individually and on a broader statistical basis, no citizen should be made to get an injection of anything at the point of a gun. I absolutely oppose this legislation." - Chris Thompson, President Fullerton School District, Board of Trustees Fullerton, CA*
